

DASL (Student Information)

Each assessment requires a certain file extension (.txt, .csv, .xlsx, etc.) to be used in order for the import screen to work. To perform the assessment import navigate to **SIS-Assessment-Assessment Imports** at District level. Below is a guide of the assessment name, the type to choose on the Assessment Import screen, the required file extension, and where the student scores appear in DASL.

Also, make sure after the import is completed to click **View Import Management**. Items that appear on the Unmatched tab have records imported but not yet assigned to a student. Be sure to click the magnifying glass and attach the scores to the correct student in your district.

If you have any questions or issues please email studenthelp@neonet.org

| Assessment Name | SIS-Assessment-Assessment Imports type | File extension required | Scores appear on |
|------------------------------|---|--------------------------------|---|
| ACT | <i>Redesigned ACT</i> (tests administered 9/2016 and after) | .txt | SIS > Student > Assessment > ACT |
