Customer Benefits

- KnowBe4 provides baseline testing to assess the Phish-prone percentage of your users through a simulated phishing attack.
- The world's largest library of security awareness training content, which includes: interactive modules, videos, games, posters, newsletters and automated training campaigns with scheduled reminder emails.
- Best-in-class, fully automated simulated phishing attacks, hundreds of templates (or build your own!) with unlimited usage and community phishing templates.
- Enterprise-strength reporting, showing stats and graphs for both training and phishing.
- Better Pricing. By working together, Ohio's information technology centers have negotiated MUCH better pricing.
- Easy to Deploy.
- No additional hardware or endpoint agents required.
